**EXPERIENCE**

Kevin Green has recently joined Mckerrell Architects, and has over twenty years practice experience. He has held senior roles in private practice at large international firms, with educational institutions and government. He is a former Project director at Woods Bagot and a Senior Architect with ML Design.

He has master-planned a diverse range of university and college campus developments, designed and documented university and medical buildings, law enforcement and justice facilities, school buildings commercial office buildings, and medium density residential apartments. Current work with the firm includes refurbishments at Wesley Hospital and Industrial buildings at Eagle Farm.

Kevin brings with him design expertise, technical knowledge and project management experience, and skill in realising complex buildings with detailed user requirements.
